

Contractor or Self-Employed Professional?

You need a more **individual** type of insurance

the widest possible cover at
the lowest possible price

Why do you need to be covered?

For many contractors and freelance professionals being correctly insured forms part of their contracts with clients. For others, it is a vital part of protecting themselves against unforeseen eventualities. That's the easy part to answer. The question most of our clients ask is "exactly what cover do I need?"

That's where our expertise comes into its own. We have an extensive knowledge of freelance professions and have designed a package that will cover you against the main exposures you could face in your professional life.

Just one comprehensive policy removes all the complications of purchasing insurance separately.

So, what does the policy offer?

Public Liability	£5m
Employers' Liability	£10m
Personal Accident – weekly benefit	£500
Personal Accident – death benefit	£100,000
Directors' and Officers' Liability	£100,000
